Ideas come

WORK WITH YOU

The process begins with an artist's rendering of your idea, which we will carefully fine-tune into a spectacular finished product.

Our design team will start with the received photos from your area of interest and will transform them into unique visuals with the products of your choice and with a spark of magic that only FDS knows how!

FDS has been designing, manufacturing and creating magical festive worlds for the past 34 years. Our passion for perfection attracts attention from people, your customers, around 80 countries worldwide, where our creations have been successfully installed.

We customize decoration based on your needs and your brand, and we are proud to have cultivated an impressive list of clients who consistently turn to us as their decoration partner.

As leaders in the holiday decorating industry since 1987, our vast knowledge of materials and keen understanding of what is necessary for successful execution, is the cornerstone of the process - yet our experience is constantly inspired by both innovation and tradition.

What makes us unique is our ability to invent the standards and set the trends in the illuminated decoration industry by using our creative imagination, high quality materials, durable professional constructions and first class after sales service to build and maintain long lasting business relationships with the largest and most respectful corporations worldwide.

Holiday decoration is much more than just a beautiful ornament, a flickering light or a Christmas tree. Our ability to understand design, our ability to manufacture what we design and the implementation to real decoration themes, is what makes us a preferred partner for our customers.

It is our passion with detail that ensures your seasonal decor will be a success.

CITIES

FDS Illumination works with cities all around the world for both holiday and permanent decorations. We decorate their streets with our light motifs creating captivating street views for drivers and pedestrians passing.

We have endless designs at our disposal, capable of responding to every possible case from Christmas and Easter to Halloween and Ramadan events and custom requests for national holidays.

Keep the excitement generated by our illuminated decorations buzzing the whole year round with seasonal decoration from FDS. We specialize in creating stunning seasonal decoration for commercial outdoor properties and other public venues.

Outdoor centers provide an ideal setting in which to celebrate holidays or the change of seasons on a grand scale, and can generate enthusiasm among merchants and shoppers alike.

Nearly every city is home to public spaces that serve as a sort of "community living room", where locals and visitors gather to celebrate the festive season. These include city plazas, parks, open air marketplaces, public squares, main streets, and major pedestrian areas. Such spaces are ideal sites for high impact holiday displays that can make a grand impression and set the tone to introduce the city spirit of the season.

FDS can help achieve maximum impact for your display by taking advantage of high pedestrian traffic areas, optimum visibility, access to shops and parking, and other important design considerations. We'll also show you how our unique brand of practical creativity can help you reach your design goals at a price that meets your budget.

With over 33 years of design experience and unwavering attention to detail, we are able to create high-impact seasonal displays, even with a modest budget.

Aluminium constructions, light strings, led rope lights, led falling tubes and more materials in all shapes, sizes and colours are combined to create the most beautiful and unique designs to choose from. Cross street motifs and lighted pole mounts enhance the urban view and create a welcoming festive atmosphere for locals and visitors alike.

AIRPORTS

During the holidays season, airports around the world are transforming their terminals with Christmas decorations, illuminated trees and bright lights, helping travellers enjoy their stay while waiting for their flight.

Airport officials contacts us when they need help in creating a spectacular holiday display that would be remembered by travelers from around the world.

From big golden gates to small delicate Christmas characters and trees, we try to spread the Christmas spirit all around the world.

Arriving passengers are surprised by enormous trees decorated with all kind of colorful ornaments, while wreaths and garlands cover the whole airport.

Anyone visiting the airports we decorate can admire the over-sized walkthrough motifs and unique decorations.

Bright lights, decorated giant trees, and huge gift boxes greet passengers in the check-in hall.

We offer solutions to decorate your space from top to bottom. We can easily handle anything from giant Christmas trees to enormous constructions. All that we will ask of you is to explain your vision to our design team and we'll bring it to life. To simplify things for you, we can provide themed design concepts adapted to your airport to choose from.

You can trust us to incorporate the uniqueness of your space with the latest design concepts, resulting in a distinctive holiday decoration.
